

## Exporting Schedule for Referee Assignment Purposes

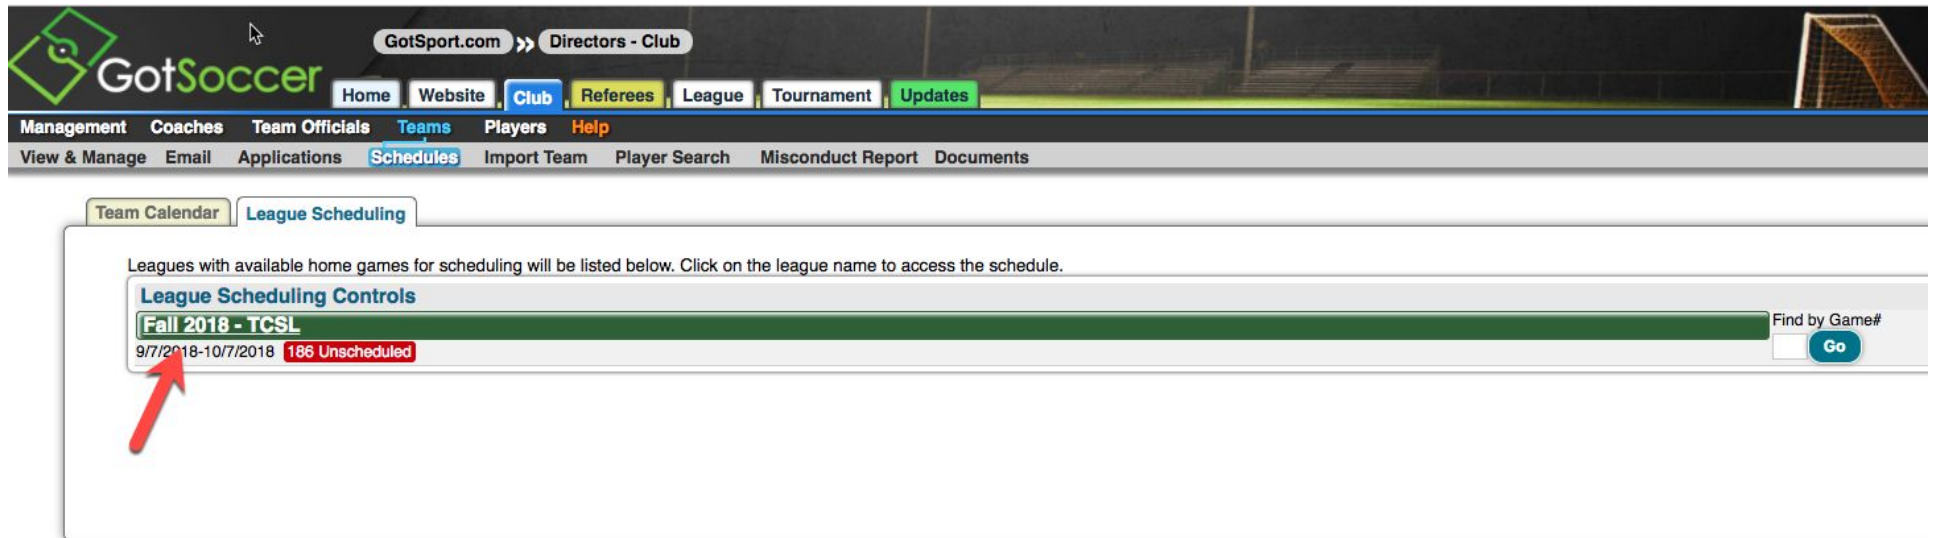

For those referee assignors that also handle field assigning for their club, your GotSoccer access will allow you to export the season's schedule for import into your referee assigning tool.

For those referee assignors that do not yet have access to GotSoccer, you may want to request access from your club: [how to create user accounts in GotSoccer](#).

These steps should be followed only *after* clubs have scheduled their home games.

### How to export schedule from GotSoccer.

1. Log into GotSoccer. *If you do not have a login, either your club will have to send you an export by following these instructions or the club can provide you a login (click the link above for how-to).*
2. Select the "Club" tab.
3. Select "Teams" in the black menu bar.
4. Select "Schedules" i the gray menu bar.
5. Click on the League you wish to pull an export for.

Leagues with available home games for scheduling will be listed below. Click on the league name to access the schedule.

League Scheduling Controls

Fall 2018 - TCSL Find by Game#

9/7/2018-10/7/2018 186 Unscheduled Go

6. Select the "Schedule Download" tab.
7. Click "Download Excel Format Schedule - All Games (.xls)" *Note: this will export ALL games (home & away) for your club.*
8. You may now import this schedule into your referee assignment tool. *Note: you may need to format this document appropriately specific to your referee assignment tool's import requirements, and remove away games from the file.*
