How to Add Players to Primary Player List (For Club Administrators)

NEW FOR FALL 2019: ONLY APPROVED, US CLUB SOCCER-ELIGIBLE PLAYERS WILL BE ABLE TO BE ADDED TO THE GOTSOCCKER GAME CARDS THAT MANAGERS WILL HAVE ACCESS TO PRINTING!

Prior to each season, TCSL will upload to each club’s GotSoccer account the players that will be participating in the League. This information is accessed from the National Registration System (NRS), so only players that have been added there will be migrated to GotSoccer. The below instructions are for club administrators to add players to a team’s primary player list after this process has been completed. If you would prefer to handle the initial assigning players to teams in GotSoccer yourself, please reach out to the TCSL office.

1. Log into your GotSoccer “Club” account.

2. Select the “Club” tab.

3. Select “Players” in the black menu.

4. You may filter for many categories: first name, last name, birthdate, gender, etc. If you know who you are searching for, simply enter the players’ last name. In order to see only players that are registered/eligible with US Club Soccer, select the “Registered” dropdown as shown below.

larının sağ alt köşesindeki kutuyu seçin ve次のセクションに進む。
5. In the row for the corresponding players, select the “check box” for that player.

6. In the upper right hand side of the screen, select the appropriate team from the “drop down” and then click “ASSIGN”.

7. The player in question is now assigned to the right team. You may do this in bulk by selecting multiple players at one time and assigning to the corresponding team.

*Note: Toggle the “Page Size” feature (upper left hand corner) to show more players than the initial 25.*
